

P-SERIES OPTIONS

The energy efficient P-Series incorporates excellent insulating properties where the heat reflecting glass surface creates a cooler workplace while maintaining the heating efficiency of the oven. The excellent ergonomic design of the oven with its solid, robust and compression-spring door construction along with the stainless steel, bead-blasted handles provides a good work environment as does the optimum height between decks.

OPTIONS P-SERIES

1. Beyond Black

Design in black stainless steel with anti-fingerprint coating that protects the surface from grease and facilitates cleaning. The magic touch of black sets the design to the next level.

2. Without sturdy legs with lockable wheels and pull out shelves

Legs, two shelves and wheels are standard (exception P201, P202) The price is deducted if not needed. Can be ordered separately.

3. Separated Power Supplies

Separate electrical supply per deck for separate feeding and lower connection power.

4. Door with double glazed window per deck

Makes the oven more heat efficient and gives a better working climate in the restaurant kitchen.

5. Disassembled decks

The oven is shipped unassembled. Recommended for installation in tight spaces.
